

“If you want it done right... Do it yourself!”

A Look At Three, of Trane’s Many, Industry Exclusive Components

AlumiTuff™, All Aluminum Coil Technology

Above: Dissimilar metals create electrolysis, and causes coil corrosion, that results in coil failure. Those days are history with Trane’s industry exclusive all aluminum coil manufacturing.

ClimaTuff™, Compressors

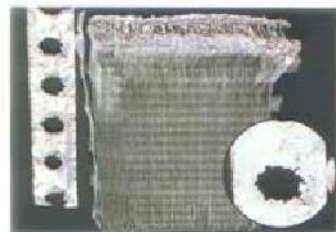

- *World’s First Successful Heat Pump Compressor
- *The Only Residential Compressor Trane Uses
- *SEET Torture Tested (System Extreme Environment Test)
- *The Most Reliable Compressor In The Industry
- *All other manufacturers outsource their compressors

Spine Fin™ Good!

- *Fewest Joints (10)
- *Lowest Leak Rate
- *Corrosion Resistant
- *10 Year Warranty

Plate Fin... Bad!

- *Complicated with over 30 joints
- *Never completely comes clean
- *Less surface area for heat transfer
- *Corrosion = Loss of Contact
